

## **We Are Lost Creek Consulting, Inc.**

**We are your Centricity EMR Conversion and Integration Specialist.**

**We are the answer to your question: *“How do we get our existing data into our new Centricity EMR?”***

We are devoted to helping your clinic retrieve and utilize EMR information to help improve the quality of care you provide for your patients. By making the data available to all your clinical systems, it is easier for your providers to make more informed decisions. By implementing your conversion and migration needs, we make the initial usage of EMR more effective and more efficient for your providers. By increasing the success of your implementation, we help increase your providers' compliance with best patient care practices. By training your technical staff, we help you keep the data flowing and enhance provider satisfaction.

### **Problem Preloads from Centricity PM**

- ✓ Import your patient demographics – First Name, Last Name, DOB, Gender, SSN, Address, etc.
- ✓ Import your patient ID numbers and patient diagnosis ICD-9 codes

### **Full Data Conversion from your old EMR to Centricity EMR**

- ✓ Patient Demographics
- ✓ Problems / Medications / Allergies / Directives
- ✓ Documents / Chart Summary Notes / Scanned Images
- ✓ Labs / Vitals / immunizations
- ✓ Histories – Family / Social / Surgical / Past Medical

### **ImmsLink Program – Bi-Directional Interface to State Immunization Registries**

- ✓ Upload immunization data to registries in real time or as nightly batch uploads
- ✓ Download registry immunization data to reconcile with your local EMR patient charts
- ✓ Map immunization codes from the EMR to the registry standards

### **Consulting Services**

- ✓ General Consulting / Interface Management / Database Divorces / Data Exports / Training

We are your Centricity EMR conversion and integration specialists. We have over 15 years of medical records experience with all types of clinics, in-patient hospitals and out-patient ambulatory care facilities.

Let us help you make your Centricity EMR conversion as seamless as possible.
